

## Health and Safety

Yurala Contracting Service is committed to providing a safe and healthy workplace for all workers and Contractors.

Yurala Contracting Service's shall maintain a goal of zero incidents, injuries and illnesses through strong management and employee commitment of safety first time, every time.

Yurala will continually achieve its goal through the following:

- Achieving compliance over and above all relevant legislation, standards and codes of practice with a simple and practical approach that can be implemented by all personnel;
- Continuous improvement over and above all client expectations and goals;
- Setting and achieving KPI's for all employees and sub-contractors;
- Identifying and assessing safety and health risks prior to commencing all tasks;
- Implementing controls that will eliminate or reduce the risks of personnel, equipment or the environment being exposed to hazards;
- Implementation and monitoring of a simple but complete safety management system that can be used and understood by all employees and contractors;
- Provision of training and induction processes for all employees and contractors in health and safety issues and management;
- Provision of hazard identification tools for everyday use;
- Review of all contractors safety management systems prior to engaging them through a formal contract;
- Review and auditing processes for continual improvement;
- Recognising and encouraging personnel who identify or suggest safety improvements.

Yurala Contracting Service is committed to providing a safe workplace to ensure personnel and contractors are not exposed to hazards at any time whether at home or in the workplace.

  
Charles Smith - CEO  
Yurala Contracting Service
